GRETNA GLEN
CAMP AND RETREAT CENTER

Salaries and Residency Info

Pay varies depending on your role, experience, and whether you're a resident or commuting staff member. We'll go over position options and pay details together during the interview process. Salary positions range from **$350-$550 per week**. Hourly positions such as commuting kitchen and commuting lifeguard positions **begin at $8.50 per hour**.

Some Summer Staff positions (Day Camp Counselor, Kitchen Crew, Lifeguard) are typically **Commuting** roles, where you arrive and depart Gretna Glen each day based on the hours you are assigned. However, **Residency** throughout the week for these positions is an option if strongly preferred.

In these cases, the role of staff members living on-site becomes more flexible based on the needs of our programs. These staff members will be expected to complete tasks outside of their normal job duties, which may include cleaning program areas, helping to lead activities, or jumping in the kitchen after dinner. By being "both feet in" and contributing to the larger scope of Gretna Glen's mission in this way, Resident staff will help campers thrive, strengthen staff culture, and keep our camp running smoothly.

In most cases, resident staff are 18 and over. Staff under 18 who are not resident counselors have adjusted hours based on their age.

Gretna Glen's Mission: To joyfully welcome all people into God's creation, gathering together in community, and inspiring each other to do good.
